Our Skincare Line

We use B.S.C.&S Beauty custom skincare collection for our facial services.

Depending on the treatment or customization you choose, we will use the following to suit your skin needs and desired outcomes:

MD collection

For medical-grade skin results, we combine the best of medical-grade formulations plus natural ingredients, with our high-tech therapies to give you superior results.

Organic collection

For those who prefer to keep things natural, our certified-organic, natural treatments are created using the best from nature, with a combination of Jamaican essences and time-tested plant ingredients.

Signature Treatments

Essence of The Maroon

Our “Essence of the Maroon” ritual is steeped in Jamaican history and healing traditions. It features our headwrap that uses Jamaican herbal leaves (pimento, soursop, eucalyptus and star anise), and a facial pressure point massage. It induces a sensation of wellbeing as it boosts mental clarity, reduces stress, eases migraines, and promotes spiritual balancing, while the accompanying body massage is soothing, yet stimulating.

60 min \$130 / 90 min \$195

Sky-Vibez

This special treatment is ideal for those suffering from anxiety, intense feelings of stress, pain and inflammation. We create a customized massage infused with CBD oil to restore and balance the entire mind and body. Choose between an indoor or outdoor session. Location and weather-dependent.

60 min \$140 / 90 min \$210

Microneedling

Our microneedling treatment is a refined skin-rejuvenation service designed to support a smoother, brighter, and more refreshed complexion. Using a precision technique that encourages the skin's natural renewal process, this treatment helps improve the appearance of fine lines, uneven texture, enlarged pores, and post-acne marks while promoting a healthier-looking glow.

Ideal for clients seeking a luxurious yet results-focused skin treatment, microneedling is performed with careful attention to comfort, care, and professional standards. A consultation is recommended to assess suitability and personalise your treatment plan.
